

HOW DO I KNOW WHAT IS RIGHT AND WRONG?

#291 There are three guidelines that can help us distinguish good actions from bad ones:

- 1.What I do must be good:** a good intention alone is not good enough. Bank robbery is always bad, even if I commit that crime with the good intention of giving the money to poor people.
- 2.Even when what I do is truly good, if I perform a good action with a bad intention, it makes the whole action bad.** If I walk an elderly woman home and help her around the house, that is good. But if I do it while planning a later break-in, it makes the whole action something bad.
- 3.The circumstances in which someone acts can diminish his responsibility, but they cannot change at all the good or bad character of an action.** Hitting one's mother is always bad, even if the mother has previously shown the child little love.
