

Pinball set up

The first step to this game is building a homemade pinball game. You can do this one of two ways:

- (1) Elevate one end of table by putting a few books or reams of paper under the legs on one side.
- (2) Use one side of a cardboard box or piece of wood and lean it against a table so that it slants down.
- (3) Either way, you need to attach plastic cups to the surface with duck tape or if you are using cardboard you can glue them on. You can set up the cups however you like but the cups should be on their sides with the mouths of the cups facing towards the top of the board.
- (4) The cups should be set up in a pattern where there is space between the cups and they are not directly in front of each other. The pattern can be something like this:

- (5) You should attach 9 cups with the 10 commandment labels on them (the 6th and 9th commandment are combined for this game).
- (6) You can also attach other obstacles to the board like rulers, clips, blocks but all in a way that they are facing slanted down so the balls can eventually get to the cups.
- (7) Before the game you will also need to attach the labels to the ping pong balls with tape.
- (8) Most importantly – TRY IT OUT! If it does not work, you may need to adjust or fix certain cups.

CONQUEST

HIGH SCHOOL WEEKLY ACTIVITY

Instructions: Print out the following list so you know which ping pong balls go in which cups.

Answers for team leader

1 st Commandment	2 nd commandment	3 rd Commandment
