# CONQUEST 7TH & 8TH GRADE ACTIVITY

# TURTLE

# EIFEL TOWER

# CONQUEST 7TH & 8TH GRADE ACTIVITY

## ANSWERS

**THE MOOD RING:** This represents Christians who don't live according to what they believe if they do not feel like it. They think right and wrong is based off of how they feel or their moods.

**THE CLOWN:** This represents Christians who try to make sure everyone likes them and they do not practice what they believe because they don't want to lose friends. They prefer that the crowd loves them, even if it means wearing a mask and not being their true selves.

**JELL-O:** This represents Christians who are shaky in their beliefs and swayed easily to what other people believe or say.

**Electric plug:** This represents a Christian who lives disconnected in their daily life from their faith. They think faith is something for church, not something to put into practice each day.

**THE LEAF:** This represents someone who goes with whatever new idea comes along. It makes you change your opinion and attitudes to fit the opinions and attitudes of others, especially the leaders in your group.

**THE MIRROR:** This represents someone who cares only about appearances and puts that before his beliefs. It makes him insist heavily on his external image: how he dresses, his hair, his stuff, his way of walking and the words he uses, etc., so that he will always fit in.

**The turtle:** This represents a Christian who hides at the sight of difficulties and runs away instead of trying to face them with the courage that comes from Christ.

**The Eiffel tower:** This represents the Christians who are not authentic because they look down on everyone instead of seeing people like God does.
